Business Systems Architect - Mar 2020 – Apr 2024

- Designed and optimized internal systems supporting multiple departments and 25+ staff members.
- Improved reporting accuracy and data organization, reducing manual tracking time by ~40%.
- Aligned operational processes with technology solutions to support daily operations and long-term scalability.
- Enabled consistent communication and smoother cross-department coordination through standardized systems.

EDUCATION

Digital Design & Development

Expected in May 2026

British Columbia Institute of Technology (BCIT)

Burnaby, BC, Canada

Graphic Design

Jan 2019 - Dec 2020

Simon Fraser University

Burnaby, BC, Canada

PROJECTS

Scaffold - Sep 2025 - Dec 2025

Frontend Developer & AI Integration

- Designed and built key frontend flows using React, focusing on usability and accessibility.
- Implemented AI-powered grant matching logic based on user input and profile data.
- Built dynamic form components with per-question loading states and auto-resizing inputs.
- Integrated OpenAI API to enable natural language input for application drafting.

DTRMND - Sep 2025 - Dec 2025

Frontend Developer & Brand Designer

- Built the full frontend using Vite and React with reusable, modular components.
- Designed and implemented the visual system and UI aligned with the DTRMND brand.
- Implemented an AI-powered try-on feature allowing users to upload a photo and preview outfits.
- Integrated AI image generation for virtual fitting and product visualization.

Money Monsters - Feb 2025 - May 2025

UI/UX Designer

- Led UI/UX design for a gamified financial literacy app for children aged 6–16.
- Designed user journeys, wireframes, and high-fidelity interfaces in Figma.
- Created a consistent design system including color palettes, typography, and components.
- Designed core flows for chore assignment, allowance tracking, and reward visualization.
- Conducted user research and usability testing to inform design decisions.
